

# ABBOTT VASCULAR

The Green Initiative

**We may be green but . . .**

**. . . that doesn't mean we're wet behind the ears.**

We've been around for a while. Our history of innovation and attention to responsible stewardship for environmental efforts has steered our attention to reducing the waste of one our most precious resources – our trees.

Starting July 1st, a complete Abbott Vascular catalog, including barcodes, will be available on [AbbottVascular.com](http://AbbottVascular.com) in Excel and PDF formats.

Here's the key! By using the accompanied web key, you have immediate access to these file formats. An existing 100-page catalog will be replaced. Please help us in the effort to reduce waste and save resources.

Make sense? Ask your Abbott Vascular Sales Representative for all the details.
